EXPERIENCE

Game Developer Intern

May 2025 – Jan 2026

Vanara Games Pvt. Ltd.

India

- Designed and developed mobile games using Unity and C.
- Implemented gameplay mechanics, movement systems, and input handling.
- Worked on UI systems including pause, restart, next level, and death screens.
- Collaborated with artists and designers to deliver polished game experiences.
- Participated in debugging, testing, and performance optimization across devices.

PROJECTS

Colour Swap Runner

Unity, C#

- Developed a 3D mobile runner game with swipe controls and color-switching mechanics.
- Implemented efficient color-gate detection for level progression and player death.
- Created complete UI flow including pause, restart, next level, and death screens.
- Optimized performance for smooth mobile gameplay.

Tyre Champs

Unity, C#

- Built a fast-paced runner game where the player rides on a tyre.
- Implemented a dynamic tyre size reduction system (big → small) after obstacle hits.
- Handled smooth visual transitions between tyre prefabs and continuous forward movement.

Ring Master

Unity, C#

- Developed a skill-based ring throw game with precise aiming mechanics.
- Implemented trajectory calculation, arc control, and realistic ring physics.
- Added visual effects, sound cues, and animation feedback for throws.

Fishtastic Rush

Unity, C#

- Created a 3D mobile runner game with swipe-based movement controls.
- Designed full UI flow and optimized performance for mobile devices.
